## **Training Display Tables**

If there is sufficient interest, we would like to have tables set up in the meeting room throughout the conference on which programs could display various samples of their training materials. Many of us have questions about the best way to handle comprehensive exams, are seeking examples of good assessment tools, or would be interested in seeing other programs' student handbooks, as just a few examples. This year, we are inviting all programs to bring along a single copy or sample of those materials or strategies that have been particularly useful to them, and share them with colleagues.

If you are interested in contributing something to the Training Display Tables, please e-mail Cindy Juntunen at [cl.juntunen@und.edu](mailto:cl.juntunen@und.edu) by Friday, January 23. Please put Training Display in the subject line of your e-mail

We will also be setting up a similar opportunity to share these materials electronically via the CCPTP website.
